

RedLine RACER

Everything else is just a drive in the country.

LeMans Was Never Like This!

It's the wildest road race ever! Sixteen tracks to choose from—with high speed banks, overpasses, pop-up barriers, moving ramps, treacherous oil slicks—Redline Racer has all the spits and thrills that will appeal to even the most hardened veteran road racer.

Watch the countdown from red to green, stomp on the gas and "turbo-boost" into the lead! Slide through the "esses," ease up along the speed banks, scream down the straightway and...Look Out For That Wall! Where'd that come from?!

Your opponent's crowding you now, he's going to make his move—Whammm! You're into a wall! No blood and guts, though. It's a quick run across the infield, back into your car and back into the race! Jam the accelerator and refine the tech, spin the wheel...it's gonna be a sideways slide to the checkered flag!

Part of CINEMATRONICS' exclusive CINEMAT SYSTEM, Redline Racer is fun-filled racing action the whole family can enjoy. With super new sound boards for tires that really squeal and V-8's that roar, it pits one or two players against the most challenging race tracks ever devised. And 4 "backyard" heroes can compete on an awesome 25-inch screen! You've never seen action this incredible before...and only from the game masters at CINEMATRONICS!

Down off the speed bank and across the treacherous oil slick. Hit the moving ramps just right—or it's into a wall!

Four racer console features awesome 25" screen for the fastest action ever!

FOUR PLAYER DIMENSIONS

56" high, 29" wide,
60" deep, 250 pounds

Wild action through the harpin "essies" as barriers pop-up randomly to keep things interesting.

Sixteen challenging road circuits to choose from...each one different.

Upright for one or two players.
